

Concordia Place provides 40 years of experience in delivering high-quality children's programming. Our programs were designed with your child's changing needs in mind; alongside health, safety, and security measures to put your mind at ease./

The Concordia Difference

- Our home visitor is certified in Baby TALK, a relationship and research-based curriculum.
- Approved by the Illinois State Board of Education, Baby TALK supports the home visitor to meet the real needs of children and families.
- Using age appropriate activities and resources for parents, our home visitor provides individualized lesson plans tailored to families.
- Home visits are scheduled twice a month and provide a support system for parents.
- Every six months, our home visitor and families create goals together.
- Every four months, the Ages and Stages Questionnaires (ASQ) are conducted with families. Our home visitor and parents do this screening together to look at different areas of your child's development.
- Our Home Visiting program is free and offered in English and Spanish.
