

SUMMER CAMP

Dive into Summer with Us!

Our teachers will lead campers in hands-on activities and unique experiences that will keep them learning all summer long. Each week is packed with an amazing variety of activities and field trips.

At Concordia Place

We create an exciting, safe environment for kids to have a great summer filled with unique experiences and adventures. Learning, team building, games, swimming, field trips, and creative expression are all interwoven to create a full summer of fun. Our camp provides a balance of time for kids to relax and have fun, but also maintain the skills and knowledge that were built throughout the school year.

Our program is state- and city-licensed, with a caring and highly trained teaching staff, and low teacher-child ratios. Organic lunches and healthy snacks are served daily. There's plenty of outdoor space for children to play!

We believe every child should have a great summer, so our summer camp is offered on our economically-inclusive sliding tuition scale.
